TIME LINE

60.4509.02 TIME LINE
Radio controlled clock with temperature

The special feature of this clock is the **extremely well organized display**. Particularly large time display with the weekday and date in full.

TIME LINE is easy to read from a distance and is perfect for an entrance, reception area, waiting room or office.

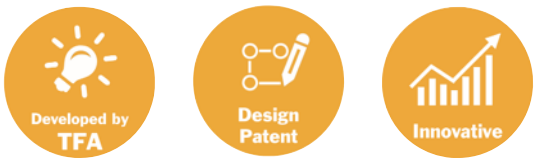

Make life easier

The clear organized structure of TIMELINE makes the large time display clarity **ideal for** ease of use by **senior citizens, Alzheimer's and dementia patients**.

Always the right time in sight

The radio controlled clock **TIMELINE** receives the **European time signal** (DCF 77) what can be received all over mainland UK and almost all of Europe. So you always have the current date, time and the change from summer to winter time automatically adjusted.

- **Written days of the week in 7 languages**
- **Well organized large display for clarity and ease of use.**
- **Radio controlled clock with fully written date and day of the week**
- **Changeable time zone function for conversion to different time zones**
- **Displays indoor temperature**
- **2 alarm settings with snooze function**
