2090 Impact driver 90 Nm, 5/16" x 142 mm

Impact Driver Series

EAN:	4013288180926	**Size:**	145x30x30 mm
Part number:	05072014001	**Weight:**	573 g
Article number:	2090 90 Nm	**Country of origin:**	JP
		Customs tariff number:	82054000

- 2090 impact driver, 90 Nm
- To loosen and tighten screws without the use of power tools
- Impact forces are converted into rotary motion
- The double-curved design is particularly efficient.
- 5/16" hexagon socket take-up

High quality impact driver that can loosen rigid connections without the use of power tools simply by the force of the impact. The Wera impact drivers have a particularly high efficiency thanks to their robust, double-curved design. Impact forces are converted into rotary motion. The use of compressed air equipment becomes unnecessary. For M 4 to M 8 screws. Drive: 5/16" hexagon socket.

Impact drivers

It has to be possible that even the most seized screw can be loosened. Impact drivers are the solution whenever manual power is insufficient and a pneumatic screwdriver is not to hand. The Wera impact driver has particularly high efficiency thanks to its robust double-curved design. Impact forces are converted into rotary motion and so there is no need for the use of pneumatic appliances.

No need for power tools

Seized screws can be loosened or tightened without power tools.

Highly efficient

The double-curved design is particularly efficient.
