

MC-SATA3-T4

4 port SATA3.0 PCIe Card

Description

This 2 channel 4 port MC-SATA3-T4 (2 Port eSATA + 2 Port SATA) PCIe PCI Express Combo RAID Controller Card allows you to expand the storage capacity of your computer by adding additional hard drives. The eSATA ports allow you to connect hard drives to your computer externally while achieving full internal speed. The two SATA ports can optionally be used for internal hard drives by activating the on-board jumper switch (Note: Control of the two independent SATA channels is directed to either the internal ports or external ports; simultaneous use of eSATA and SATA ports is not supported).

Features

Internal Ports: 2x SATA; External Ports: 2x eSATA

Fully compliant with Single-lane(x1) PCI Express specification; Reliable ASM1061 Chipset is employed

Fully compliant with SATA 3.0 interfaces, compatible with SATA 2.0 and SATA 1.0;
Data Transfer Rate: Up to 6Gbps

Fully Plug ; Supports 2000/XP/Vista/Win7/Win8

Specifications

Model	MC-SATA3-T4
Dimensions (PCB size)	83 x 68mm
Weight	92g
USB Bus Power Output	5DCV, 900mA (max) per port
PC Interface	PCI Express 2.0 single lan (x1)
Port	2 external SATA 3.0 2 internal eSATA
Connection Bandwidth	Up to 6Gbits per second
Operation Temperature	41~95°F (5~35°C)
Operate System Supported	Win 7/8, Vista, XP

System Requirements

•

Windows XP/Vista/7(32/64 bit)/8(32/64 bit)

One available PCI Express slot (recommended PCI Express 2.0)

Package Contents

- 1 * Card
- 1 * CD driver
