logitech

CRYSTAL CLEAR VIDEO CALLS. ANYTIME. ANYWHERE.

Logitech Webcam C925e

Logitech Webcam C925e delivers razor-sharp video for an enhanced face-to-face video experience from virtually any desktop.

With a 78° field of view, full HD video with autofocus, and RightLight™ 2 technology, the Logitech Webcam C925e provides an outstanding collaboration experience improving visual quality in low light and backlit situations at multiple distances.

Omni-directional dual stereo microphones deliver crystal clear sound in private offices and open workspaces. Users can also quickly get privacy and security from the video stream with the built in privacy shutter.

The C925e is brilliantly designed for anyone looking to enhance their day-to-day video collaboration. USB plug-and-play connectivity makes it a breeze to set up and operate.

It even works with any video conferencing software application, including the ones you already use.

With advanced business certifications including Skype for Business and Cisco Jabber® compatibility as well as enhanced integration with Logitech Collaboration Program (LCP) members[1], users can expect a seamless integrated meeting experience.

FEATURES	BENEFITS
HD 1080p video at up to 30 frames per second	Full HD 1080p 30 fps makes a vivid impression every time with true-to-life video calls.
UVC H.264 encoding technology	Frees up PC bandwidth by putting video processing within the camera.
78° field of view	See more without having to reposition the camera or crop and zoom.
Omni-directional dual stereo microphones	Designed to capture sound for clear communication in larger spaces like offices and small conference rooms.
Convenient privacy shutter	Easy lens closure for added privacy and security.
Logitech RightLight™ 2 technology and autofocus	Webcam intelligently adjusts to improve visual quality in low light and backlit situations at multiple distances.
Easy-to-use	Simple to set up and use, USB plug-and-play connection makes video meetings easy.
Mutiple mounting options	Freedom to mount the camera wherever it works best — LCD screen, notebook, or tabletop — by using the attached clip or the tripod embedded thread.
Professional-grade certifications	Leading business certifications (Certified for Skype for Business, Optimized for Microsoft® Lync® 2013, Cisco Jabber® and WebEx® compatible[2]) and enhanced integration with Logitech Collaboration Program (LCP) members[1] ensure an integrated experience with most business-grade video conferencing platforms.
