- Be sure to read this manual thoroughly and to do the installation work safely.
Keep this manual available for future reference.
- Sufficient expertise is required for installing this projector Ceiling mount.
- Do not use the projector Ceiling mount for purposes other than for which it is designed.

Important Safety

- 1 Be sure to read this manual thoroughly to do the installation work.
 - 2 Only qualified service personnel (two or more) should carry out installation or dismantling of the projector from the projector wall mount.
 - 3 **Use with products heavier than the maximum weights (Weight Capacity : <25kg) indicated may result in instability causing possible injury.**
 - 3 For safety reasons, check the strength of the wall before installation. If the wall is not strong enough, reinforce it sufficiently before installation.
 - 4 Do not make alterations to the projector Ceiling mount.
 - 5 Do not install the projector Ceiling mount on a wall subject to vibration or impact.
 - 6 To avoid fire, do not install the projector with the projector Ceiling mount in a humid or excessively dusty place.
 - 7 Use the supplied accessories only. Use of accessories other than those supplied may result in damage to the projector Ceiling mount.
 - 8 When dismantling the projector from the projector Ceiling mount, be sure to unplug the AC power cord and other connecting cables beforehand.
 - 9 Do not hit or hang any heavy objects on the projector Ceiling mount. If the projector Ceiling mount is damaged, stop use and contact a qualified service person immediately.
 - 10 Please install this apparatus only on the horizontal surface instead of the slanting one.
- * **Manufacturer is not liable for any damages or injury caused by mishandling or improper installation.**

Checking The Supplied Accessories

To Set The Projector Ceiling Mount On The Wall

To Set The Projector Ceiling Mount On The Wall

- Concrete ceiling mounting thickness must be a minimum 100mm. Anchor bolt and screw (M6 × 55) are needed to be used for installation.
- Dry-ceiling mounting thickness must be a minimum 70mm. Only screw (M6 × 55) is needed to be used for installation. If the wall is not strong enough, reinforce it sufficiently before installation.
- Please contact reseller if you have any questions about mounting surface issue.
