

H-606 – unheard of quiet!

With its pleasing appearance, the **H-606** is the perfect basis for a silent PC system. The sound insulated case was developed for quiet systems and is therefore ideal for use in a low-noise environment.

Its compact design in the Micro-ATX standard offers, thanks to the absence of external drive bays, enough space and can also accommodate graphics cards up to a length of 32cm.

Standard insulation mats on both sides and cover, a graphics card holder and a smooth-running 120mm fan on the back ensure an extremely quiet, as well as well-cooled system.

- ✓ both sides and cover sound insulated
- ✓ two USB 3.0 interfaces
- ✓ standard 120mm fan
- ✓ rubberized power supply pads
