

FVT-1103 Version: 1

RJ45 to SC Fast Ethernet Media Converter, Single-Mode Fiber, 1310nm, 40km

The LevelOne FVT-1103 single-mode fiber optic media converter with SC connector is perfectly suited to convert network signals between copper and fiber optic based networks. The converter has a 10/100Base-TX RJ-45 port, supports full-duplex and half-duplex connectivity as well as 10Base-T and 100Base-TX auto-sensing. A range of up to 40 km can be achieved with the appropriate single-mode fiber optic cables. The converter can be used either stand-alone or as a plug-in module for the CHV-2000 19" chassis, which can accommodate up to 14 units for use in a central wiring closet.

Key Features

- Supports the transmission of extra-long packets up to 1.6KB
- IEEE 802.3x Flow Control protects against lost packets for reliable data transmission
- Single-mode fiber with SC connector for transmission of up to 40km
- Supports low-time lag transmission
