MPN: USBETHB

USB2.0 to Ethernet Adapter

The MicroConnect USB2.0 to Ethernet adapter in black (MPN: USBETHB) provides a fast and reliable wired network connection for devices lacking a built-in Ethernet port. This adapter allows you to easily connect your laptop, tablet, or other USB-enabled device to a network via a standard RJ45 Ethernet cable. Benefit from stable and high-speed data transfer rates, perfect for streaming, online gaming, or large file transfers. Eliminate reliance on potentially unstable Wi-Fi connections. Compact and portable, this USB 2.0 to Ethernet adapter is an essential tool for anyone needing a dependable wired network connection. As with all MicroConnect products, this adapter is built to European quality standards, ensuring a long lifespan and reliable performance.

- Support Windows, iOS, Mac OS & Linux
- Chipset: RTL8152B
