

INDUCTION COOKER

BF.700

Induction hob in scratch-resistant glass for 8 to 25cm diameter pans. Digital panel with key for selecting between 10 powers and 10 temperatures from 60°C to 240°C. Programmable timer from 10 minutes to 4 hours. Practical and safe because it is activated only in the presence of the pan and the surface around the cooking area is cold to the touch. Equipped with a safety lock function, automatic switch-off and protection against overheating. Easy to clean.
