

## ZD510-HC Z-Band Wristbands

Zebra's ZD510-HC allows you to print patient information and barcodes directly on Z-Band direct thermal wristbands

The wristband is the cornerstone of patient safety. If a wristband fades and fails to scan, patient care and safety and workflows are compromised. Zebra's Supplies Research and Development developed Z-Band to be one of the most durable direct thermal wristbands in the market\*. With over 3 billion patients identified since 1998\*\*, you can rely on Zebra.

### Z-Band Wristband Features:

- Adult, Paediatric and Infant sizes
- Adhesive and Clip-Closure options
- Resistance to common hospital hand sanitisers
- Silver antimicrobial coating that protects the wristband from degradation
- Latex-free material
- MR-Safe\*\*\* level of safety

\*For more details on the durability laboratory testing performed, please download our white paper on [www.zebra.com](http://www.zebra.com) titled "Putting Wristband Durability to the Test." \*\*1998 - 2018

\*\*\*Z-Band wristbands are made of polypropylene and vinyl. The direct thermal imaging chemistry is composed primarily of leuco dyes and developers. The inks / varnishes used are UV varnishes and water-based inks. There is no metal content in or on these particular patient identification bands. Therefore, Z-Band wristbands are considered to be MR-Safe.

Zebra Z-Band Wristbands Are Available With Adhesive or Clip Closure, In a Variety of Sizes and Colors to Meet Your Needs
