

KM-206WR

With the vertical, wired KM-206WR right-handed mouse, tension in the hand is a thing of the past. The vertical-ergonomic design ensures a natural and tension-free hand position and actively supports you during longer work on the PC.

In addition to the large buttons, the four-stage sensor that can be set at the push of a button (up to 2400dpi) ensures precise work. The discreet, side-mounted lighting, the high-quality silk-touch coating and the sleeved USB cable with integrated ferrite core complete the overall picture of the vertical mouse.

- ✓ wired vertical mouse for right-handers
- ✓ ergonomic shape for a tension-free hand position
- ✓ four-stage sensor with up to 2400dpi
- ✓ high quality silk-touch coating
