edding is versatile!

Dear Customer

At edding our aim is to provide the perfect solution and application for our numerous target groups.

Professional markers for our specialist users, teaching and presentation aids, printer cartridges and toners, all form as important a role in our range as the intelligent solutions designed to help you organise and repair your home.

Fans of Creating and Decorating can select from a wide range of pens and markers available in an array of brilliant colours. So whether you are working on paper or more specific materials such as wood, porcelain or metal - striking results are guaranteed.

And there‘s something for children too - our Colour and Play range features a wide selection of high-quality, safe products that are not only fun to use, but also help to support children‘s creative development.

Our many experts at edding are just as versatile, both in terms of marketing and product development, focusing on their target group and incorporating user feedback directly into account when developing future product ranges and communication tools. But there‘ s one thing that all our employees have in common - they have edding ink running through their veins, which ensures that only genuine edding quality ends up on the shelves.

Naturally, our wide product portfolio also needs to be presented and communicated professionally and we place great value on your expertise to help us to support and advise all our consumers. As a trading partner our edding sales team will always help you in creating an optimal product range and can assist you with a range of communication materials, as well as our POS shop solution - which can expertly guide your customers through our product range in-store.

Finally, independent studies have shown that our extensive range of services and the excellent cooperation with you, our trusted partners, has been delivering mutual success and satisfied consumers for many years.

And we look forward to continuing this collective edding success story in the coming year!

The edding POS shop

Strong brand identity

The strength of the edding brand complements your own high-quality image.

Complete range

The breadth and depth of the edding range means all customers' needs are satisfied.

Quick orientation

Vertical arrangement for an immediately clear overview of applications and surfaces.

Stylish illumination

Built-in LED illumination ensures a premium presentation at the POS.

Discover and try out new products

Handy test stations with a range of notepads as well as space to showcase new products.

Intelligent product presentation

Adjustable modules for a flexible assortment (depending on the range of colours and stroke widths offered).

Eye-catching product display

This display unit offers many different ways to display the various edding products.

Similar to illustration

Easy handling

Consideration of EAN barcodes for quick reordering and stock replenishment.

Sufficient storage space

Integrated drawers have plenty of room to store additional stock.

Detailed product explanations

Includes applications, specifications and comprehensive product description.

Rated as the best primary-placement solution in the writing & marking sector –

The new edding POS Shop in-store display unit has convinced customers and dealers alike!

Almost 90% of your colleagues in the industry would recommend the new edding POS Shop:

- 83% said that the new POS Shop has had a positive effect on their business. Many of those surveyed even reported an increase in sales and revenue in the category as a whole.
- 75% of those surveyed said that sales/revenue from edding products had increased by as much as 30%.
- Among shop managers more than 90% approve of the new product category and product listings including additional listed colours.

94% of end consumers liked or very much liked the edding POS Shop:

- Around 85% of customers quickly found what they were looking for.
- 89% of those surveyed said it was easy or very easy to find their way around the edding POS Shop.
- In addition, almost half of the shoppers surveyed had discovered new edding products and new applications.

Key findings of our shopper and retailer survey.*

Impress your own customers by installing the edding POS Shop in-store display unit: the ideal mix of products, practically displayed and easy to navigate, with product benefits at a glance!

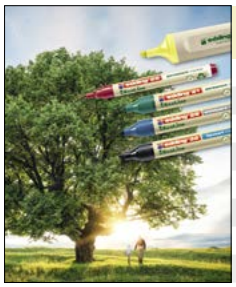

Don’t miss out on the opportunity of increased revenue and satisfied customers – invest in the edding POS Shop!

edding® EcoLine

For tomorrow's world!

In line with our stated mission of giving a little bit back to the environment every single day, we have continued our long-term commitment to the environment at product level since the launch of the edding EcoLine range.

In addition to a highlighter with a cap and barrel where at least 90% is made from a renewable resource, the EcoLine range also features permanent, whiteboard and flipchart markers in which at least 90% of the total plastic used is made from recycled material.

EcoLine highlighter

Particularly suited for the luminous marking and highlighting of text passages and notes. Water-based ink in brilliant neon colours. The product is refillable.

At least 90% of the cap and barrel are made from renewable resources.

edding 24 EcoLine highlighter

Highlighter with chisel nib,
water-based ink in neon colours.

At least 90% of the cap and barrel are made from renewable resources.

Neon colours:
005, 006, 009, 010, 011, refillable.
Box of 10 in each colour. Order no. ***4-24xxx****

24/4 S Box of 4 markers. ***4-24-4***
Neon colours:
005, 006, 009, 011.

Educating and Presenting

Stop talking about it and start visualising it! Visuals to back up what you are trying to say are indispensable, particularly when giving presentations. After all, visual communication boosts understanding and improves information retention. Whether in conference rooms, the office, lecture halls or the classroom: the edding whiteboard, flipchart, permanent and non-permanent pens will not let you down.

Whiteboard markers

For writing and marking on whiteboards. Dry-wipeable from virtually all non-porous surfaces such as enamel, glass and melamine. Thanks to the "cap-off" ink, the cap can be left off for a few days without the marker drying out. Lightfast and quick-drying. With no added butyl acetate. Almost all products are refillable.

Writing, Highlighting and Correcting

Success involves not getting bogged down by trivia. That's why so many professionals who take a structured approach to working rely on the trusted and long-lasting products from edding's "Writing, Highlighting and Correcting" category. With its various fineliners, gel rollers, roller-balls, highlighters and correction products, edding organises even the most chaotic of desks. Give them a try: Once you have experienced the quality which edding offers, you will never look back.

Fineliners and ink rollers – disposable

For writing and signing. The nibs are mostly metal-shrouded for protection and guarantee a fine and precise writing result. The roller-balls are also suitable for making carbon copies.

Glass, metal and plastic

Porcelain brushpen

Fibrepen with flexible brush nib for decorating porcelain, glazed ceramic and heat-resistant glass. The design is dishwasher safe after heat fixing. The flexible brush nib is ideal for painting large areas as well as fine details. The porcelain brushpen has a luxuriously smooth application and an even finish. No dripping or clumping. Quick-drying and fully correctable prior to heat fixing. Extremely lightfast, water-based pigment ink. Areas which come into contact with foodstuffs should not be painted.

edding 4200 porcelain brushpen

Fibrepen for porcelain, glazed ceramic, heat-resistant glass. Dishwasher safe after heat fixing. Flexible brush nib for painting large areas and fine details. Luxurious application, even finish. No dripping or clumping. Quick-drying and fully correctable prior to heat fixing. Extremely lightfast, water-based pigment ink.

Colour and Play

High-quality, safe products which guarantee kids will love learning: the edding FUNTASTICS children's brand. Featuring pens for colouring and drawing on paper, the range also includes child-friendly window and textile markers as well as children's face paint sticks. In addition to parents of children aged between 3 and 10 years, this category is also aimed at grandparents and relatives who want to give a worthwhile present as well as teachers and all those responsible for purchasing equipment in schools and nurseries.

Fibrepens for children

The fibrepen range of pens and markers for colouring and drawing on paper has been specially designed for children's hands. The ergonomically shaped grip and no-slip zone ensure and encourage fatigue-free colouring and drawing fun for kids aged 3 and upwards. The ink can be easily washed off skin and can be washed out of most textiles at 40 °C.

edding 14 FUNTASTICS fibrepen for children

Children's fibrepens with a pressure-resistant round nib and ergonomically shaped grip zone ensure fatigue-free colouring and drawing. The water-based ink can be easily washed off skin and can be washed out of most textiles.

Printing with edding – efficient & high-quality

Reliable print quality and perfect functionality at a competitive price – with its high-quality range of printer cartridges and recycled toners edding is able to offer impressive value for money. High-quality inks and toners ensure a brilliant print result with at least the same level of efficiency.

www.edding-printing.com

Printing

Printer cartridges and recycled toner cartridges in edding quality.

With its wide range of compatible printer cartridges and recycled toners, edding presents a high-quality and competitively priced alternative to the respective original products.

Brilliant advantages for the shopper

- Excellent value for money with reliable edding quality.
- Continued printer manufacturer's warranty.

Profitable advantages for the trade

- Attractive conditions.
- High standards of quality and short delivery times.
- Regular range expansions.
- Personal guidance and support to ensure an ideal range.

As well as placement on an existing peg-board, a high-quality metal display for a smaller scale solution is also available.

A product finder directly on the shelf and the website **www.edding-printing.com** assist the search for suitable printer cartridges.

edding Printer cartridges

Range of printer cartridges for the major manufacturers: **Canon, Epson, HP** and **Brother**

edding Toner cartridges

Extensive range of toner cartridges for the major manufacturers: **HP, Brother, Samsung, Lexmark, Canon and Kyocera**

For more details, see www.edding-printing.com as well as in the seperate price list. Should you have any questions, please do not hesitate to contact a member of the edding sales force.

edding POS Shop

The edding POS Shop is available in an eye-catching wall placement and aisle solution. For more detailed information and further options, please contact your edding sales representative.

Wall placement:
edding POS Shop premium high

Aisle placement:
edding POS Shop standard medium

edding Displays

Visually impactful and customer-friendly: edding displays are genuine eye catchers and are designed to encourage activity at the POS. At a glance, they illustrate the possible applications of each product clearly and concisely, making the purchase decision easier for your customers.

edding blistercards

At edding, we believe in keeping things “transparent“. That’s why selected markers, writing instruments and office supplies are also available on blistercards. The products are explained on the blister card in a customer-friendly way. Which means you are sure to find the right product for your applications.

Blister dimensions and packaging units

Minimum order for all blister products = 10 pcs./box.

Exceptions:

Blister products edding 21, 22, 24, 28, 31 = 8 pcs./box.

Printing on paper does not give exact reproduction of the ink and wax colours.

Legend

Refillable.

Water-based ink.

Barrel made of aluminium.

cap off
Cap can be left off for the length of time indicated. The cap off time has been tested under laboratory conditions.

Ventilated cap as specified by ISO 11540.

Cap diam. larger than 16 mm, therefore no ventilation as per ISO 11540 necessary.

Blister packaged.

EAN barcodes refer to the smallest retail unit (single pen, case, blistercard, display). We reserve the right to make changes to the models featured in this catalogue since the edding range is continually being updated. Alteration to our products by any kind of repackaging, e.g. blister, shrink-pack etc., is only permitted with our explicit consent. We cannot accept responsibility for any typing errors.
