

USB-A to 3.5 mm Audio Adapter

Improves audio access and performance

Part No.: 150859

EAN-13: 0766623150859 | UPC: 766623150859

USB-A to 3.5 mm Audio Adapter - Plug-in, play and enjoy better audio performance with USB convenience

Ideal for desktop, notebook and netbook computers, the Manhattan USB-A to 3.5 mm Audio Adapter instantly creates microphone-in and audio-out ports through any USB port. Easily connect headsets, microphones and speakers equipped with 3.5 mm cables that are too short to comfortably reach ports with awkward or inconvenient locations. With Plug and Play and hot-swap capabilities, it easily replaces inoperative sound cards, bypasses damaged audio ports and improves access without special drivers or software. A built-in Class-B power amplifier utilizes USB bus power, eliminating the need for external energy supplies or additional cables. Support for 3-dimensional audio and virtual 5.1 surround sound and built-in sound effects with a 10-band equalizer deliver rich, high-quality experiences with familiar USB convenience and functionality.

Features:

- Instantly creates mic-in / audio-out connectivity through any USB port — ideal for desktop, notebook and netbook PCs
- Improves access, bypasses faulty sound card or audio ports and upgrades audio performance
- Supports 3-D and virtual 5.1 surround sound and includes preset sound effects with 10-band equalizer
