

- **Scandinavian design:** sober and timeless, the wood-white combination sublimates both large interiors such as reception halls and smaller contemporary spaces.
 - **Readability:** a dimension of 31.5 cm for maximum readability up to 35 m thanks to its contrast of large black numbers on a white background.
 - **Ergonomics:** thanks to its quiet system, the second hand emits no noise creating a framework conducive to concentration for work.
 - **Precision:** Quartz system of high quality allows reliability of a gap of 1 sec in 6 years of operation.
 - **Complementary products:** clock perfectly coordinated with the VICKY LED lamp, PRYSKA floor lamp, ACCESS coat rack and the ERGO WELL electrical desk.
-
- Operation: Powered by a 1.5 V (AA) battery supplied
 - Thickness: 3.5 cm
 - Dimensions: diameter: 31.5 cm
 - Weight: 0.77 Kg
 - Average consumption: 0,21 Am
 - Quick wall fixing with 1 eyelet
 - Materials: beech wood frame * / flat mineral glass lid

* The wood used in this product comes from a forest managed in an eco-responsible way

UNILUX'S ADVICES

1- Why use a clock?

A clock is a must-have accessory that fits perfectly into any room in your business:

individual office

- open space
- meeting room
- Passing places
- lobby

Setting up a clock in a workspace allows employees to avoid checking the time on the smartphone or tablet time and therefore not be tempted to look at their messages or browse the internet by same occasion. Thus a clock allows to gain in concentration and productivity because the employees are less distracted.

For good readability from a distance, it is important to have:

- good contrast between the background of the dial and the color of the numbers (better contrast with white background / black numbers)
- A good height of the figures (about 3cm minimum) and in Arabic characters preferably

In addition, the choice of a clock can be made according to different needs on the part of the consumer.

**1- Ideal for integrating
into any type of
workspace**

**Solution:
Quartz clocks**

**2- Perfect for creating a
framework conducive to
concentration at work**

**Solution:
Silent clocks**

**3- Automatically
adjust the time
permanently**

**Solution:
Radio-controlled clocks**

2- Some definitions

Quartz system

The quartz pendulum mechanism, based on the piezoelectric phenomenon, is one of the least energy-consuming, with a reliability of one second deviation in 6 years of operation.

Radio-controlled system

The time is automatically and permanently adjusted by radio waves from the Mainflingen atomic clock (high precision: 1 second difference maximum in 1 million years)

Step movement

Second-hand movement of the second hand

Sweep movement

Continuous movement of the second hand
