

The logo for the Turtle Beach Stealth 600 GEN 2 headset. It features a large, white, inverted triangle on a dark background. Inside the triangle, the words "TURTLE BEACH" are written in a stylized, blocky font at the top. Below the text is a silhouette of a palm tree. At the bottom of the triangle, the word "STEALTH" is written in a smaller, sans-serif font. Below the triangle, the word "STEALTH" is repeated in a larger, bold, sans-serif font, followed by a trademark symbol. Below that, the number "600" is written in a very large, bold, sans-serif font. At the bottom, the words "GEN 2" are written in a smaller, sans-serif font.

Local Restrictions on 802.11a, 802.11b, 802.11g and 802.11n Radio Usage
Caution: Due to the fact that the frequencies used by 802.11a, 802.11b, 802.11g and 802.11n wireless LAN devices may not yet be harmonized in all countries, 802.11a, 802.11b, 802.11g and 802.11n products are designed for use only in specific countries, and are not allowed to be operated in countries other than those designated use. As a user of these products, you are responsible for ensuring that the products are used only in the countries for which they were intended and for verifying that they are configured with the correct selection of frequency and channel for the country of use. Any deviation from the permissible power and frequency settings for the count of use is an infringement of national law and may be punished as such.

This section includes the following FCC statements for the Stealth® 600X Gen 2:

- FCC ID: XGB-TB2315
- Class B Interference Statement
- RF Radiation Exposure & Hazard Warning
- Non-Modification Statement
- Unlicensed National Information Infrastructure Bands Operation Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

To ensure compliance with FCC RF exposure requirements, this device must be installed in a location such that the antenna of the device will be greater than 2 cm (0.8 in.) from all persons. Using higher gain antennas and types of antennas not covered under the FCC certification of this product is not allowed. Installers of the radio and end users of the product must adhere to the installation instructions provided in this manual. This transmitter must not be co-located or operated in conjunction with any other antenna or transmitter.

Use only the supplied internal antenna. Unauthorized antennas, modifications, or attachments could damage the device, void the warranty, and violate FCC regulations. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment. Please contact Turtle Beach for a list of approved 2.4 GHz and 5.0 GHz antennas.
