HDMI to DisplayPort Adapter - 4K 30Hz

Product ID: HD2DP

This HDMI® to DisplayPort adapter lets you connect an HDMI video source, such as your laptop, desktop, Blu-ray™ player, or camera, to a DisplayPort monitor or projector.

Be more productive

The active HDMI to DisplayPort adapter offers plug-and-play installation, providing a hassle-free setup with no software or drivers to install. The adapter uses a USB port for power, avoiding the need for an extra power adapter. It also features a compact design that requires very little space at your workstation.

The HDMI to DP adapter lets you add a second monitor to your laptop, providing the additional screen space you need to multitask more efficiently and accomplish more in the same amount of time. It offers a definite productivity boost, and lets you view documents, spreadsheets, and web pages across multiple screens.

Enjoy Ultra HD picture quality

With support for 4K at 30Hz, you get a sharp, crisp picture that’s richer and more true-to-life than traditional HD, with far greater detail. The adapter delivers Ultra HD content to your DisplayPort monitor and supports 7.1 channel surround audio.

The adapter is backward compatible with 1080p displays, which makes it a great accessory for home, office or other workspace applications.

The HD2DP is backed by a StarTech.com 2-year warranty and free lifetime technical support.

Certifications, Reports and Compatibility

RoHS Compliant Available

Applications

- Connect your HDMI computer to a DisplayPort monitor
- View documents, spreadsheets, and web pages across multiple screens
- Design and edit graphic files on your DP display using the HDMI output on your computer
- Edit and view post-production video on a 4K display
- Viewing camera footage from your HDMI source on a DisplayPort monitor

Features

- Provides a compact solution with a plug-and-play installation
- Increase your productivity by connecting a second monitor to your laptop
- Deliver astonishing picture quality with support for video resolutions up to Ultra HD 4K
- Backward compatible with displays supporting Full HD 1920x1200
- Offers USB-powered performance - no drivers or power adapter required

	Warranty	2 Years
