Guaranteed Performance

Unlike many of its competitors, this device has undergone rigorous testing to prove that it complies with all USB standards. The device has met stringent standards and earned certification from the USB Industry Foundation – the body that governs USB standards.

100.0W

Charge any USB device – USB-C Power Delivery 100.0W

This charger can provide up to 100.0W of power to high powered devices – the maximum amount supported by the USB Power Delivery standard.

Compact & Portable – Easy to use and carry

Using the latest GaN charging technology, we've been able to make our chargers 50% smaller than traditional chargers and eliminated the need for a bulky cable to connect the charger to the power outlet. The result is a take-anywhere charger that can be thrown in a laptop bag for on the road use without taking up valuable space and weighing you down.

Certified Safe – Meets and Exceeds All Safety Standards

The charger is certified to meet and exceed all international regulatory standards and features multiple safety functions such as over current protection, over voltage protection, short circuit protection & over temperature protection.

Interface

Input	100-240VAC 50~60Hz 1.5A Max
