

Mini-ITX PSU 120W DC/DC Rev. 2 – brings energy into your ITX case

The compact design of this Mini-ITX PSU allows you to power your components even in tight cases.

A cable with socket and nut is attached to a matching hole on the case wall and is used to connect an external 12V power supply, which may have a power of up to 120W.

The board is equipped with the 20pin main power cable, a strand with 1x Molex connector, 1x S-ATA connector and a strand with 1x 4+4pin connector.

- ✓ Compact design (35x47x18mm)
- ✓ Supports power supplies up to 120W
- ✓ 24 Months Warranty
