

Electrical food slicer compact¹

Item No. 518.010 / GTIN 40 04822 51810 7

Details

- metal construction
- silver metallic
- serrated circular blade, 17cm Ø
- slice thickness adjustable up to approx. 20 mm
- safety switch for intermittent and continuous operation
- detachable carriage
- carriage way approx. 18 cm
- food tray
- cable compartment
- warranty: 2 years*, product made in Germany

Technical features

- 230 V, 65 Watt eco-motor, duty cycle 5 minutes
- VDE/GS, safety category 2, CE
- dimensions: width 20.5 cm height 23.0 cm depth 33.0 cm
- weight: 2.6 kg

Electrical food slicer compact¹

Slender body but strong performance – this is food slicer compact¹.

Metal construction and functional design are its significant features. The slicer requires only little space on the worktop because of its slim shape. All parts providing for stability are made of metal, making the machine robust and ensure precise slicing.

The slice thickness can be adjusted continuously up to approx. 20 mm. The detachable carriage allows to also cut off larger pieces of food. A food tray and cable compartment are included.

Food slicer compact¹ is driven by a 65 W eco motor, at 20 % reduced power consumption but 50 % increased engine efficiency compared to the previous model.

A smooth ham- and sausage circular blade is available for every ritter food slicer.

Technical data are subject to change

*The 2-year manufacturer's warranty applies to all devices sold within the European Union. Your legal warranty claims according to § 437 ff. BGB (German Civil Code) remain unaffected by this regulation. You can view the warranty conditions at <https://www.ritterwerk.de/warranty>.

About ritterwerk:

ritterwerk was founded in 1905 by Franz Ritter. Since then the medium-sized company develops and produces household appliances which facilitate the everyday work in the kitchen.

The medium-sized company, headed by Michael Schüller, develops, designs and produces exclusively in Gröbenzell near Munich.

The company's philosophy 'made in Germany' not only stands for its production site in Germany. It also incorporates high quality standards, sustainability, appropriate materials as well as functional design, thus clearly following the 'Bauhaus' principles of the twenties.
