FUSION® WALL MOUNT SOLUTIONS

MICRO-ADJUSTABLE FIXED AND TILT MOUNTS

An industry favorite, Fusion® Fixed and Tilt Mounts were designed with installer feedback for superior speed and usability. Stability, less hardware, fast installation, improved cable management and more great features add up to benefits installers appreciate in our best wall mount yet. Accessories are available to customize any configuration.*

ControlZone Height & Roll Adjustment

Centerless Lateral Shift

Centris Low-Profile Tilt

FEATURES

- ControlZone™ Height & Roll Adjustment is an industry-first feature for post-installation fine-tuning of height and leveling of the entire configuration, not just the display.
- Centerless™ Lateral Shift allows for up to 16" (406 mm of post-installation lateral shift - 8" (203 mm) left/right of uprights. Enhancements include up to 3" (76 mm) of lateral shift in the wall plates. Dual-stud versions only.
- Centris® Low-Profile Tilt provides effortless, tool-free tilting by using the center of gravity to balance the screen.
- ClickConnect® Tool-Free Latching creates an audible click when the screen safely engages with the mount. A built-in cable stand allows easy access under the screen. Tuck Quick Store cords out of sight with the magnetized end.

***See our Fusion™ Wall Mounts Brochure for more information on mounts and accessories.**
