

EX-RL

ERGO™ Right Handed BHS Handle for EX Saw Blade Large

PRODUCT DETAILS

- Handsaw handle developed according to the scientific ERGO™ process
- Asymmetrical handle in different sizes for right-handed as well as left-handed users
- Asymmetrical shape and extended support wing spreads the pressure on the hand to the entire palm
- Conventional handles tend to concentrate the pressure to a line in the centre of the hand
- For right-handed, large and medium sizes are available and for left-handed large size is available
- Handles can be used with all EX-sawblades
- Maximum comfort with minimum effort due to the ergonomic design
- Extreme comfort from the asymmetric design eliminating pressure points
- Quick and easy sawblade change using the patented click system
- Available in right hand medium and large, left hand medium
