- Suitable for a wide range of skin tones and hair colours
- Comes with Satin Compact pen trimmer

Personalised IPL hair removal treatment

- Optimise your routine with the Philips Lumea IPL app
- Skin Tone Sensor and 5 intensity settings

Highlights

1 attachment for body

The body attachment can be used for gentle and effective treatment. The wide treatment window is perfect for quickly treating larger body areas like the legs, arms and stomach.

Philips Lumea IPL app

Our free coaching app helps you plan and stick to your treatment schedule, then takes you through each session step by step. Downloaded by more than 2.1 million users.

Developed with dermatologists

As a leader in health technology, Philips developed Lumea IPL in consultation with dermatologists, for easy and effective use in the safety of your home. Derived from technology used in professional salons, Lumea IPL offers gentle treatment, even on sensitive areas.

2 x a month for fast results

Every 2 weeks to get started — that's half as many treatments as other brands. Followed by touch-ups just once a month. That's it. Covering both lower legs takes 15 minutes.

Skin Tone Sensor

Choose from 5 intensity settings for a comfortable experience. The Skin Tone Sensor prevents you from treating areas of your skin that are too dark for IPL treatment.

Extra-long cable

Lumea 7000 Series is convenient to use thanks to an extra-long cable for easy access and enhanced manoeuvrability.

For many skin and hair types

IPL needs contrast between the pigment in the hair colour and the pigment in the skin tone; it therefore works on naturally dark blonde, brown and black hair and on skin tones from fair to medium brown (I-IV).

Satin Compact pen trimmer

Complete your beauty routine: The Satin Compact pen trimmer is a discrete on-the-go beauty tool to quickly and easily remove even the finest facial hairs.
