Great results, great value

Enjoy 12 months of hair-free smooth skin*

Get hair-free smooth skin with our Lumea IPL 7000 Series. Treatments are gentle and effective with attachments for each body area.

Gentle and effective for long-lasting smooth skin

- Fast results with treatments only every 2 weeks
- Developed with dermatologists to be easy and effective
- Extra-long cable for added flexibility while treating

Full solution for face and body

- 1 attachment for body
- Comes with Satin Compact pen trimmer
- Suitable for a wide range of skin tones and hair colours

Personalised IPL hair removal treatment

- Skin Tone Sensor and 5 intensity settings
- Optimise your routine with the Philips Lumea IPL app

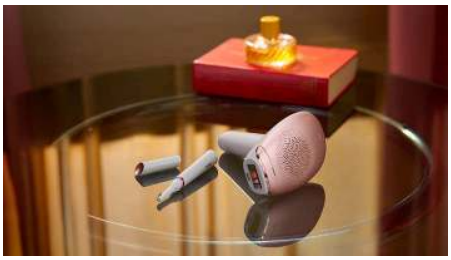

Highlights

2 x a month for fast results

Get started with the initial phase of 4 treatments only every 2 weeks — that's half as many treatments as other brands. Then touch up monthly to maintain the results.

1 attachment for body

The body attachment can be used for gentle and effective treatment. The wide treatment window is perfect for quickly treating larger body areas like the legs, arms and stomach.

Philips Lumea IPL app

Our free coaching app helps you plan and stick to your treatment schedule, then takes you through each session step by step. Downloaded by more than 2.1 million users.

Skin Tone Sensor

Choose from 5 intensity settings for a comfortable experience. The Skin Tone Sensor prevents you from treating areas of your skin that are too dark for IPL treatment.

Developed with dermatologists

As a leader in health technology, Philips developed Lumea IPL in consultation with dermatologists, for easy and effective use in the safety of your home. Derived from technology used in professional salons, Lumea IPL offers gentle treatment, even on sensitive areas.

Satin Compact pen trimmer

Complete your beauty routine: The Satin Compact pen trimmer is a discrete on-the-go beauty tool to quickly and easily remove even the finest facial hairs.

Extra-long cable

Lumea 7000 Series is convenient to use thanks to an extra-long cable for easy access and enhanced manoeuvrability.

For many skin and hair types

IPL needs contrast between the pigment in the hair colour and the pigment in the skin tone; it therefore works on naturally dark blonde, brown and black hair and on skin tones from fair to medium brown (I-IV).
