Diagram illustrating the assembly of the 16-port RJ45 patch panel:

- Step 1:** Insert the panel into the rack. A red arrow labeled "1" points to the panel being inserted into the rack.
- Step 2:** Tighten the screws on the side. A red arrow labeled "2" points to the screws being tightened on the side of the panel.
- Step 3:** Connect the cables using the RJ45 ports. A red arrow labeled "3" points to the RJ45 ports on the front of the panel.

Additional details shown in the diagram:

- A red arrow labeled "Click!" points to the front of the panel, indicating the correct orientation for insertion.
- A circular inset shows a close-up of the side of the panel with a red arrow labeled "2" pointing to the screws.
- A circular inset shows a close-up of the front of the panel with a red arrow labeled "3" pointing to the RJ45 ports.
- A circular inset shows a close-up of the front of the panel with a red arrow labeled "3" pointing to the RJ45 ports.
- A circular inset shows a close-up of the front of the panel with a red arrow labeled "3" pointing to the RJ45 ports.
- A circular inset shows a close-up of the front of the panel with a red arrow labeled "3" pointing to the RJ45 ports.
