Lighten Up!

The front panel of 309 Gaming Edition is equipped with 144 stunning ARGB LEDs. That can achieve an excellent visual experience for the built-in games and the lighting modes.

* The addressable cable can only be used with motherboards with ARGB headers.

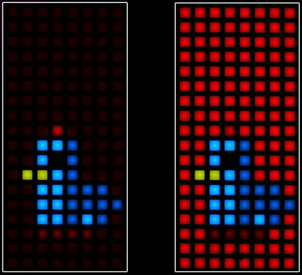
Clap to Make Some Noise



Interactive Lifestyle!

Coming with a built-in sound receiver, the 309 Gaming Edition provides interactive lighting. It hosts a virtual chicken/giraffe that reacts to noise. Just don't be too loud or it will go crazy!
