VS162 / VS164

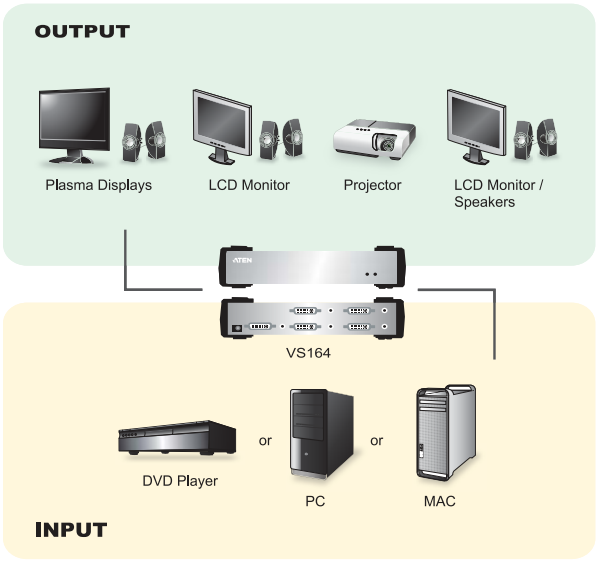

2/4-Port DVI Video Splitter

The 2-port VS162 and 4-port VS164 video splitters chart a new direction in multimedia functionality by combining DVI quality video and audio. They take the signals from an audio/video source and replicate them to two (VS162) or four (VS164) audio/video outputs.

Splitters can be cascaded to three levels to handle up to 64 monitors (VS164), which makes them the ideal solution for situations such as:
a) Broadcasting video information to the public (news headlines, stock prices, airline and train schedules, etc.)
b) Company training facilities
c) Classroom instruction
