InLine® DVI USB KVM Extender over TP Cable with Audio up to 50m

Artikel 61640

The DVI USB KVM Extender DX050 with Audio extends your DVI display up to 50m away from your DVI source using Cat 5e cables. The use of Cat 5e cables provides a simple and reliable connection method that takes advantage of the wiring system in most modern office buildings. The DX050 incorporates UNICLASS's technology that allows the Audio KVM signal to be transmitted over Cat 5e cable. If the real EDID is required, it simply goes through the Cat 5e cable. With stereo audio support and include for popular widescreen formats (resolution up to 1920 x 1200), the DX050 provides crystal-clear image and sound quality in all installations where remote DVI displays are required. The DX050 is your ideal solution for use in any type of installation where you need to place the console as it is conveniently accessible, but to keep the system equipment to reside in a safe location-away from the dust and dirt of the factory floor, or the harsh environment influence of a construction site.

- Long distance transmission-up to 50m
- Uses Cat 5e cable to connect the local and remote units
- Features UNICLASS EDID technology that allows transmission over Cat 5e cable
- Superior video quality-up to 1920x1200 (40m), 1080p (40m), 1080i (50m)
- Stereo Audio enabled
- Supports widescreen formats
- Support Hot plug Detect & IR Remote Control
- USB Device Port
- Extends the distance between DVI source and DVI display device
- HDCP Compatible
- USB Keyboard and USB Mouse Ports
- Adjustable EQ compensation control
- Content: 1x Local Extender unit (TX), 1x Remote Extender unit (RX), 1x USB to DC Jack cable, 1x Users Guide, 1x Power adapter (DC5V)
