EAN-13: 0766623462198 | UPC: 766623462198

Put this foot rest under desk to be more comfortable and productive at work

Work in greater comfort by improving your posture and elevating your legs with the Ergonomic Adjustable Footrest from Manhattan. Ideal for the home office and all jobs that require you to sit for long periods, this footrest helps reduce soreness and fatigue in your legs, feet and knees. You may like it so much that you also use it after work while sitting in your favorite chair at home.

Adjustable to your personal preference

This footrest offers a customizable +/-20° tilt that lets you set the support surface to your preferred angle. It's just the right size at 300 x 380 mm (12 x 15 in.), so it's big enough for you to comfortably place your feet yet small enough to easily fit under your desk.

Non-slip surface and bottom

The rubberized platform surface prevents your feet from slipping, whether they're in socks, shoes or barefoot. The rubber bottom also keeps the rest firmly in its place and protects your floor from scratches. You don't need to assemble any parts or use any tools since this cost-effective workspace addition is ready to use out of the box.
