SC11

TRS SPLITTER CABLE

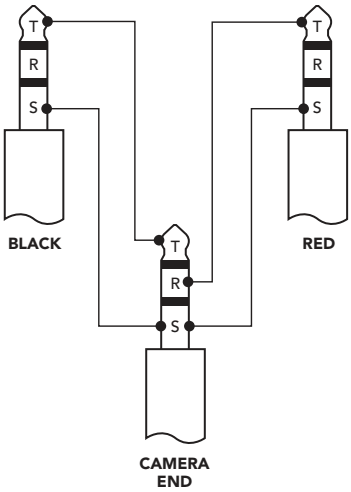

The SC11 is a TRS splitter cable for connecting two mono outputs to a single stereo input. It is particularly suitable for connecting two microphones to a single DSLR-style camera, for example dual Wireless GO receivers, or a wireless receiver and a VideoMic. It is compatible with the cable management slots in the RØDE SM7-R and DCS-1 mounts.

- High-quality shielded patch cable
- Dual TRS output
- 275mm (10.8”) long
