For U.S.A.

Supplier's Declaration of Conformity Model Number : HA-A8T Trade Name : JVC Responsible party : JVCKENWOOD USA Corporation Address: 500 Valley Road,Suite 203 Wayne, NJ 07470 Telephone Number: 973-317-5000 This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Caution: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

This transmitter must not be co-located or operated in conjunction with any other antenna or transmitter.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment and meets the FCC radio frequency (RF) Exposure Guidelines as this equipment has very low levels of RF energy.

ATTENTION:
The product you have purchased is powered by a rechargeable battery that is recyclable. Please call 1-800-8-BATTERY for information on how to recycle this battery.

Products and batteries with the symbol (crossed-out wheeled bin) cannot be disposed as household waste. This product contains rechargeable battery. Contact JVC authorised dealer for disposal.

Das Symbol (durchgestrichene Mülltonne) auf dem Produkt oder seiner Verpackung weist darauf hin, dass dieses Produkt nicht als normaler Haushaltsabfall behandelt werden darf. Dieses Produkt enthält eine Akkubatterie. Wenden Sie sich an einen JVC-Fachhändler bezüglich der Entsorgung.

Les produits et piles électriques sur lesquels le pictogramme (poubelle barrée) est apposé ne peuvent pas être éliminés comme ordures ménagères. Ce produit contient une pile rechargeable. Contactez votre revendeur JVC autorisé pour le mettre au rebut.

Los productos y las baterías con el símbolo (contenedor con ruedas tachado) no podrán ser desechados como residuos domésticos. Este producto contiene una batería recargable. Para su eliminación, consulte con el distribuidor autorizado de JVC.

I prodotti e le batterie recanti questa icona (bidone carrellato della spazzatura con il simbolo della croce) non devono essere eliminati come rifiuti solidi urbani. In queste cuffie è installata una batteria ricaricabile. Per informazioni sulla sua eliminazione si raccomanda di rivolgersi al rivenditore autorizzato JVC.

Hereby, JVCKENWOOD declares that this System [HA-A8T] is in compliance with the essential requirements and other relevant provision of Directive 2014/53/EU. A copy of the Declaration of Conformity with regard to the RE Directive 2014/53/EU can be downloaded from the following Web Sites (http://www.jvc.com/jpecdoc/).

Hiermit erklärt JVCKENWOOD, dass sich dieses Gerät [HA-A8T] in Übereinstimmung mit den grundlegenden Anforderungen und den übrigen einschlägigen Bestimmungen der Richtlinie 2014/53/EU befindet. Eine Kopie der Erklärung der Konformität im Hinblick auf die RE-Richtlinie 2014/53/EU kann von den folgenden Websites heruntergeladen werden (http://www.jvc.com/jpecdoc/).

Par la présente, JVCKENWOOD déclare que ce système [HA-A8T] est conforme aux exigences essentielles et autres dispositions pertinentes de la directive 2014/53/EU. Une copie de la Déclaration de conformité en ce qui concerne la Directive RED 2014/53/EU peut être téléchargée depuis les sites web indiqué cidessous (http://www.jvc.com/jpecdoc/).

Por medio de la presente, JVCKENWOOD declara que este Sistema [HA-A8T] cumple con los requisitos esenciales y cualesquiera otras disposiciones aplicables o exigibles de la Directiva 2014/53/EU. Podrá descargar una copia de la Declaración de Conformidad respecto a la Directiva de 2014/53/EU desde los siguientes sitios web (http://www.jvc.com/jpecdoc/).

Con la presente JVCKENWOOD dichiara che il modello [HA-A8T] è conforme ai requisiti essenziali e alle altre disposizioni pertinenti della direttiva 2014/53/UE. La dichiarazione di conformità alla direttiva sugli apparecchi radio 2014/53/UE è scaricabile dal sito (http://www.jvc.com/jpecdoc/).

WARNING For Europe

- Do not listen at high volume for an extended period. Do not use while driving or cycling.
- Pay spatial attention to traffic around you when using the headphones outside. Failure to do so could result in an accident.
- This product with a built-in battery shall not be exposed to excessive heat such as sunshine, fire or the like.
- This product contains rechargeable battery, which is not replaceable. Danger of explosion if user replaced battery. Do not replace battery user own self.

- Hören Sie nicht lange Zeit mit sehr hoher Lautstärke. Nicht beim Fahren von Motorfahrzeugen oder Fahrrädern verwenden.
- Achten Sie bei Nutzung der Kopfhörer im Freien besonders auf den Straßenverkehr. Missachtung kann zu Unfällen führen.
- Dieses Produkt mit einer eingebauten Batterie darf nicht sehr starken Hitzequellen wie Sonnenschein, Feuer o.ä. ausgesetzt werden.
- Dieses Produkt enthält einen Akku, der nicht austauschbar ist. Explosionsgefahr, wenn der Benutzer den Akku austauscht. Ersetzen Sie den Akku nicht selbst.

- N' écoutez pas le son à un volume élevé pendant longtemps. N' utilisez pas le casque pendant que vous conduisez ou faites du vélo.

- Faites particulièrement attention à ce qui se passe autour de vous quand vous utilisez le casque à l'extérieur. Sinon, cela pourrait entraîner un accident.
- Ce produit contient une batterie excessive ne doit pas être exposé à une chaleur excessive telle que la lumière du soleil, un feu ou quelque chose de similaire.
- Ce produit contient une batterie rechargeable, qui n'est pas remplaçable. Danger d'explosion si la batterie est remplacée par l'utilisateur. L'utilisateur ne doit pas remplacer la batterie lui-même.

- No escuche con el volumen alto durante períodos prolongados. No lo utilice mientras conduce un vehículo o circula en bicicleta.
- Preste especial atención al tránsito de su alrededor cuando utilice los auriculares en exteriores. Correr el riesgo de provocar un accidente si no lo hace.
- Este producto tiene una batería incorporada y, por lo tanto, no deberá exponerse a un calor excesivo como el de la luz del sol, el fuego o similar.

- Este producto contiene una batería recargable no reemplazable. Si el usuario sustituye la batería, existe riesgo de explosión. El usuario no deben sustituir la batería.

- Non usare le cuffie per molto tempo ad alto volume. Non usarle in tale condizione soprattutto durante la guida o in bicicletta.
- Quando si usano le cuffie all' esterno è necessario prestare particolare attenzione al traffico circostante. La mancata osservanza di questa precauzione potrebbe infatti divenire causa d'incidenti.
- Non esporre le cuffie a calore eccessivo quale fuoco, fucce o simili mentre vi è inserita la batteria.
- Questo prodotto contiene una batteria ricaricabile che non è sostituibile. Pericolo di esplosione se la batteria viene sostituita dall' utente. Non sostituire la batteria autonomamente.

For Canada CAN ICES-3 (B)
This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions: 1. This device may not cause interference. 2. This device must accept any interference, including interference that may cause undesired operation of the device.

The available scientific evidence does not show that any health problems are associated with using low power wireless devices. There is no proof, however, that these low power wireless devices are absolutely safe. Low power Wireless devices emit low levels of radio frequency energy (RF) in the microwave range while being used. Whereas high levels of RF can produce health effects (by heating tissue), exposure of low-level RF that does not produce heating effects causes no known adverse health effects. Many studies of low-level RF exposures have not found any biological effects. Some studies have suggested that some biological effects might occur, but such findings have not been confirmed by additional research. HA-A8T has been tested and found to comply with ISED radiation exposure limits set forth for an uncontrolled environment and meets RSS-102 of the ISED radio frequency (RF) Exposure rules.

The available scientific evidence does not show that any health problems are associated with using low power wireless devices. The available scientific evidence does not show that any health problems are associated with using low power wireless devices. There is no proof, however, that these low power wireless devices are absolutely safe. Low power Wireless devices emit low levels of radio frequency energy (RF) in the microwave range while being used. Whereas high levels of RF can produce health effects (by heating tissue), exposure of low-level RF that does not produce heating effects causes no known adverse health effects. Many studies of low-level RF exposures have not found any biological effects. Some studies have suggested that some biological effects might occur, but such findings have not been confirmed by additional research. HA-A8T has been tested and found to comply with ISED radiation exposure limits set forth for an uncontrolled environment and meets RSS-102 of the ISED radio frequency (RF) Exposure rules.
