

AMM700

Gaming mousepad with customisable 16.8M RGB
backlight colours

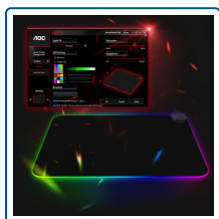

AOC G-TOOLS

LIGHT FX SYNC

LIGHT FX

AOC G-Tools

Customise and synchronise your AOC gear via G-Tools. You can individually adjust all products by using the AOC app you can easily access on your computer. In the app, you can alter the settings for lighting effects, pulsation and brightness of your AOC periphery, be it your keyboard, mouse, or mousepad. You can save up to five gaming profiles and create unique setups for different games.

Material

The right surface is essential to get the maximum out of your mouse. With a micro-textured cloth on top, this mouse can glide over the surface smoothly while the anti-slip rubber base on its back makes sure the pad stays in place at all times.
