309 Gaming Edition

GAME TIME!

Lighten Up!

The front panel of 309 Gaming Edition is equipped with 144 stunning ARGB LEDs. That can achieve an excellent visual experience for the built-in games and the lighting modes.

* The addressable cable can only be used with motherboards with ARGB headers

MAGI JUMP | 309 RACING | BLOX

A TRUE Gaming Chassis!

We reinterpreted three classic games on the 309 Gaming Edition and it transforms the front panel into a gaming platform. Now you can immerse yourself in the gaming world anytime!

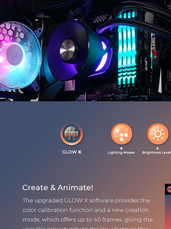

Exclusive Gamepad

The gamepad is specially designed for the 309's integrated games. With its user-friendly buttons and classic design, now you can use this exclusive gamepad to gain victory!

Lighting the Way for PC Hardware

The 309 Gaming Edition will be equipped with four inWin Saturn ASN20 fans, which feature unique transparent frames and a patented modular design.

Create & Animate!

The upgraded GLOW X software provides the color calibration function and a new creation mode, which offers up to 40 frames, giving the user the opportunity to design whatever they want on the front panel display and can even create an animation!

* The CLOW3 software is the exclusive software of the 309 Gaming Edition. All previous models cannot run this version.

Interactive Lifestyle!

Coming with a built-in sound receiver, the 309 Gaming Edition provides interactive lighting. It hosts a virtual chicken/giraffe that reacts to noise. Just don't be too loud or it will go crazy!

Versatile Liquid Cooling Support

There are three locations the chassis can accommodate liquid radiators, top, bottom (slim) and rear. A total of seven 120mm case fans can be mounted.

Customize Your Front Panel Anytime!
