

B-1

SIDE MAGNETIC DETECTOR (WHITE)

Magnetic detectors constitute basic elements of perimeter protection systems and their primary task is to detect attempts of opening doors and windows. Small **B-1** tight side magnetic detectors are designed for surface mounting. They may be glued or screwed to a surface. The detectors are available in white and brown colour versions.

- surface mounted (screw mount or self adhesive)
- small sized sealed body

TECHNICAL DATA

Max. reed switched voltage	100 V
Max. switched current	500 mA
Operating temperature range	-10...+55 °C
Weight	12 g
Maximum humidity	93±3%
Make distance	24 mm
Break distance	29 mm
Dimensions magnet enclosure	28 x 12,5 x 6,5 mm
Environmental class according to EN50130-5	II
Detector type (outside magnetic field)	NO
Reed switch enclosure dimensions	28 x 12,5 x 6,5 mm
