- Straighten or curl for various styles
- Temperature range from 120°C up to 230°C

Care and protect

- Ionic care for shiny, frizz-free hair
- Argan oil- infused ceramic plates for smooth gliding
- 50% faster straightening**
- Floating plates for gentle styling
- ThermoShield technology for less heat damage

Highlights

ThermoShield technology

ThermoShield technology lets you style with less heat damage. Its sensor regulates the temperature so that your hair gets the ultimate, even styling it deserves from root to tips.

50% faster straightening

Smooth plates help the straightener glide smoothly through the hair, so you can spend less time styling and more time enjoying the same great result.

Ionic Care

Charged negative ions eliminate static, condition the hair and smooth down the hair cuticles to intensify the hair's shine and glossiness. The result is smooth, frizz-free hair with vibrant shine.

Argan oil-infused plates

The straightener uses ceramic plates infused with argan oil to make styling fast and effortless, with a gliding action that feels as silky smooth as your hair looks.

Floating plates

The advanced ceramic floating plates move to adjust the pressure on the hair. This ensures even heat and pressure on the hair for good styling performance.

Create your favourite styles

From sleek and chic straight hair to effortlessly casual waves or head-turning curls — you can do it all. What will it be today?

Wide temperature range

Choose from a temperature range from 120°C up to 230°C to secure long-lasting results while minimising the risk of hair damage.

105 mm long plates

The longer 105 mm plates enable better contact with the hair to help you achieve perfect straightening results more easily and in less time.

Innovative temperature display

The unique combination of temperature dial and LED display gives you precise temperature control.

Cool tip

The tip of the styler is made from a special heat insulating material to keep it cool; you can safely hold it while you're styling for optimal ease of use.

Fast heat-up time

The straightener has a fast heat-up time, being ready to use in 30 seconds.

Heat-resistant roll-out mat

The convenient heat-resistant roll-out mat helps you style anywhere. It also keeps your straightener securely stored at home or whilst travelling.
