Constructor Junior – Do it yourself construction sets – 75 el.

Alexander Toys 2561 building toy:

This time, Alexander decided to diversify the offer of Constructor Junior with sets, in which there are no strict guidelines imposing what and how to build. Children have a chance to create according to their own tastes and not be limited to the manufacturer's suggestions. New products influence the development of creativity and imagination of the young constructors even better. Deciding on the self-assembly set, we receive tools allowing the realisation of ideas that are born in children's heads. It is also a treat for all fans of the Constructor Junior series who have always wanted to modify or develop their sets. With the new collection, it will be child's play. Alexander Toys 2561.
