Boost with CORE BOX V3

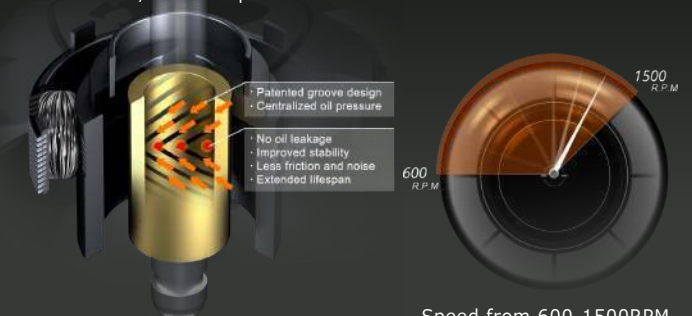

With COUGAR CORE BOX V3 controller, COUGAR VORTEX VX120 cooling fan can maximize its performance. It not only allows players to create the exclusive high-performance cooling system but also having perfect ARGB lighting effect. So, this combo set must be the best choice for setting unique ARGB gaming PC.

Great Cooling Capabilities & Durability

COUGAR's patented VORTEX fan frame design brings great performance by concentrating air flow. Hydro Dynamic Bearings (HDB) can extend the life of the fan and reduce operating noise effectively. Meanwhile, with PWM control function, it can be adjusted between the speed from 600 to 1500RPM automatically to fit different conditions, and makes sure for the best balance / extreme performance.
