

KingSmith RMWR1F SA

Folding water rowing machine

For home use

Work out in a place you like

Multifunctional device, choose your training style and enjoy the results.

Exercises for the muscles of the entire body.

Suitable for people with a weight of up to 120 kg.

Advanced technology

Modern design

Made of high-quality wood, metal and plastic, combining modernity with classic.

Bluetooth, APP KS FIT

LCD screen monitors: speed, time, distance, rowing frequency, calories burned.

Natural water resistance

Expreience real rowing

The rowing machine uses the natural power and properties of water to provide uniform and smooth resistance, making your workout becomes more effective.

Specially designed blades of the rotor simulate the resistance encountered by the boat paddle when in contact with water.

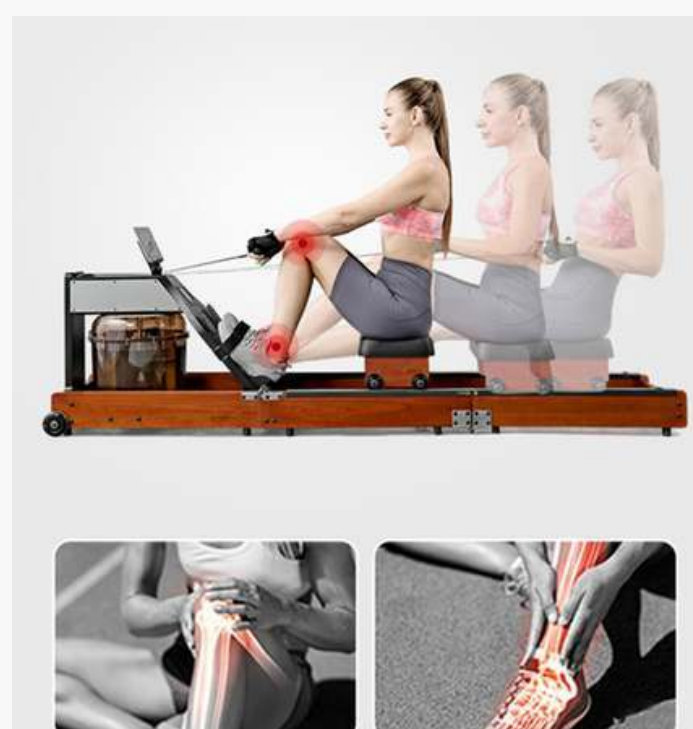

The device will last for many years simply replace the water regularly, preventing its color from changing.

Ergonomic rowing seat

Adjustable pedals and secure fastenings

Anti-slip handle for exercises

The movements performed with the rowing machine affect almost all muscle parts of our body.

Through regular exercise, we strengthen muscles, burn unnecessary calories, reduce body fat.

The correct equipment arrangement and movable elements allow safe and comfortable training, which greatly reduces the risk of knee and ankle injuries.

Profiled footrests with an adjustable strap will ensure that the feet stay in one position, arranged at the right angle during training.

Compact

- Unique three-way folding technology.
- Space-saving, folded dimensions 68 × 50 × 58 cm.
- Easy to move thanks to transport wheels.
