

Riser PCI-E 1x - 16x | USB 3.0 | SATA/ PCI-E 6pin

Product code: 55501

Riser PCI-E 1x-16x guarantees more stable operation of mining rigs. It's made of a PCI-E 16x (female) socket, a USB cable, a PCI-E 1x (male) socket, a PCI-E/SATA plug and a 6PIN plug, which allows you to connect additional power to the card. You can reduce the load on the motherboard and avoid blown tracks while many graphics cards are running simultaneously. It is the cheapest way to improve ventilation while allowing the use of all available PCI-E 1x sockets.

TECHNICAL DATA

COLOUR	Blue
INTERFACE	PCI-E 16x Female - PCI-E 1x Male (compatible with 16xPCI-E)
USAGE	Mining rigs
PACKAGE CONTENTS	PCI-E 16x adapter PCI-E 1x Riser board Cable USB 3.0 (0.6 m) SATA/ PCI-E 6pin
VERSION	006C
EAN CODE	5901878555010
