TIME LINE MAX

60.4512.xx TIME LINE MAX
Radio-controlled clock

The ultra-clear display distinguishes this radio-controlled clock. The time is readable from afar, which makes it ideal for the lobby or the entrance hall, the waiting room and the office.

Makes life easier

The clear clock layout makes reading the time and date straightforward.This radio-controlled clock displays the days of the week and the date in full format, making it ideal for senior citizens.

Always the right time in view

The **Time Line Max** receives the time via the DCF77 radio signal, so you always have a highly accurate clock with the current time and date. It also automatically switches to or from Daylight Saving Time.

- **Days of the week written in full letters (7 languages)**
- **Clear layout display for easy reading of the time and date**
- **Radio-controlled clock with the date displayed in full format**
- **Ideal for the home, office, waiting room, lobby or entrance hall**
- **Alarm and dual time function**
