

2/4/8-Port VGA Splitter with Audio

VS0102 / VS0104 / VS0108

- The ATEN VS0102 / VS0104 / VS0108 2/4/8-Port VGA Splitter with Audio are VGA splitters that allow a single VGA video and audio signal to be distributed to two, four, or eight output displays with independent stereo control. The splitters support up to 450 MHz video bandwidth, which provides optimum video quality, supported by resolutions up to 1920 x 1440.

Furthermore, for complete systems integration, serial control is standard through the VS0102 / VS0104 / VS0108's built-in RS-232 port, which allows the splitter to be controlled through a high-end controller or PC.

The VS0102 / VS0104 / VS0108 is perfect for conference rooms, training facility and multi-display broadcasting, with cascadable support up to three levels allowing a single video signal to be sent across up to 8/64/512 video displays while sustaining the highest quality possible.
