TR-15 car transmitter is a multifunctional device equipped with Bluetooth 5.3. The used chipset allows playing favourite music in excellent quality, a combination of the hands-free function with a high-class microphone guarantees the best quality during calls. Application of Quick Charge 3.0 technology allows you to quick-charge your smartphone or other devices. The transmitter is also equipped with an LED screen and Bass Boost function, thanks to which the played songs gain unique quality and sound. The additional USB port allows connecting external sources with audio files in a convenient way.
