A little piece of magic

for your phone.

POPSOCKETS

Our Story

Back in the day, David B had a problem: when getting his groove on listening to music on his phone, his darn headphones were inevitably tangled. In a moment of genius, he glued a button to the back of his phone to keep the cord neatly wrapped. Boom. The seed for PopSockets was planted.

Fast forward to 2012: that simple button had expanded (pun intended) into a simple device that really did work great as a cord wrap, but also as a handy phone grip and a phone stand too. Magic. David launched a successful Kickstarter Campaign and went on to win WIRED's Mercedes-Benz' sponsored "Fueling Innovation".

The PopSockets website went live in 2014, and it's been a wild ride ever since. We sold our 1 MILLIONTH PopSocket in January 2016.

So, what's a PopSocket?

It's that simple thing you never knew you needed, but now can't live without.

PopSockets offer a secure grip for texting or snapping the perfect selfie, and propping your phone up for catching the latest video.
