EN TECHNICAL SPECIFICATION

Bluetooth version:	5.0 + EDR
Bluetooth protocols supported:	AVRCP, HFP, A2DP
Frequency range FM:	87.6 - 107.9 MHz
LED screen display:	frequency, track number etc.
Power supply:	12V / 24V
Ports:	2x USB (with 2.4A charging and playing music function)
Supported disks:	up to 64 GB
Supported audio formats:	MP3, WAV
Hands free kit function (built-in microphone)	

The TR-10 car transmitter uses two USB ports. It allows charging your phone and playing favourite music (e.g. from a USB flash drive) at the same time. Thanks to a built-in microphone and Bluetooth 5.0 + EDR technology you can enjoy the sound without delay. The device is also equipped with a micro SD card slot (max capacity 64 GB).
