The new SANGEAN Retro series brings you RA-101, the most slick but powerful portable radio you've ever owned. RA-101 is designed as a wooden cabinet covered in faux leather with 3 simple tuning dials for easy operation between modes. The acoustically tuned speaker with passive generates the heart-pounding audio experience for its audiences.

Mono sound cannot satisfy your cravings no more? The built-in TWS connecting option allows you to pair up with another RA-101 to enjoy the stereo sound with your favourite tunes or put them into mono mode to extend and share the music with someone in another room.

We know you can't stop playing around with it, that's why RA-101 offers 19-hour playtime under one full charge for you to party all night!
