## Short Description

1. 4-in-1 USB-C to HDMI/USB-C PD/USB 3.0 multiport adapter
2. Dual display
3. Supports HDMI resolution up to 4K 30Hz
4. Supports USB Power Delivery (PD) up to 100W
5. Display modes : extended, mirror
6. Supports MST mode (for Windows only)
7. USB 3.2 Gen 1 SuperSpeed (5Gb/s)
8. Aluminum casing for heat dissipation
9. Simple Plug and Play installation
10. Multi-platform support: Windows, Mac OS, Chrome OS
11. Cable length: 25cm

## Description

This 4-in-1 Docking Station makes it possible to expand your device's USB Type-C capacity with HDMI/USB-C PD/USB 3.0 ports. The adapter provides an easy way to add HDTV, or equipment such as a monitor or projector to any USB-C device such as a smartphone, portable gaming console, MacBook, Chromebook Pixel or any similar late-model laptop with USB-C ports. The multiport video adapter lets you mirror or extend content on two additional monitors simultaneously (2 x HDMI), creating a dual-screen workstation. Multi Stream Transport, or MST, is a means of connecting one or more monitors together via a single display port. This technology makes it possible to connect say, two monitors to a laptop, using a docking station. This works by combining multiple video signals into one single stream and then 'unpacking;' them again on the display side. MST works on any Windows® device that supports DP Alt Mode (DisplayPort Alternate Mode), using USB-C.

Perfect for home entertainment, office presentations and classroom teaching.
