This four-port USB Type-C hub enhances your productivity, giving you the connections you need while you work. Connect the latest USB devices, like flash drives, capture devices and external hard drives, with fast data transfer speeds of up to 10Gbps, to save time when transferring large files.

The USB-C hub also lets you extend the life of your existing USB devices - it's backward compatible with previous versions of USB devices.

The compact, lightweight USB-Type-C hub is a convenient and portable addition to your laptop. It's bus-powered, so it draws its power directly from your computer's USB-C port, with no external power required. That means fewer cables to carry with you when you travel.
