

Product name: ENDORFY Stratus 120 PWM
Product code: EY4A007

We designed the ENDORFY Stratus 120 PWM in cooperation with Synergy Cooling. This can only mean one thing – 12 cm of pure awesomeness that can easily compete with bigger opponents [fans](#). On top of that, it fits into almost any case.

With the optional semi-passive mode, the ENDORFY Stratus 120 PWM can handle not only densely finned coolers, but also cases ~~armed~~ [equipped](#) with dust filters. Nothing is impossible for this bad boy – it delivers high performance and a great working culture in all conditions.

Some say it wouldn't break a sweat even in the desert.

At top speed ([and low volume](#))

When the computer is running at full speed, the fan accelerates with it. Such monotonous noise can be annoying – especially when the ~~enemy~~ [deadline](#) is nipping at your heels. That's why we made sure that the Stratus 120 PWM works as quietly as possible.

The fan moves on a robust FDB bearing – the main reason why the Stratus 120 PWM works quietly and smoothly even when you squeeze the last juices out of your PC. Additional optimization of the rotor geometry allows efficient operation in demanding conditions (for example, in cases with dense dust filters).

Red light, green light!

Do you remember the game of red light, green light? The Stratus 120 PWM works on similar principles – the only difference is that it stops at a low level of the control signal (the so-called optional semi-passive mode). Something tells us you'll really like that... Especially if you're a fan ([wink wink](#)) of silence.

One moment ([for assembly](#)), please

You'll mount the Stratus 120 PWM in mere minutes – even if it's your first time. We've prepared ~~guarantees~~ [instructions](#) that'll guide you step by step through the entire process. You don't even have to buy any extra mounting parts. Simply speaking, we took care of everything.

[5-year](#) warranty

The Stratus 120 PWM proudly wears the ENDORFY logo, and this is enough to make us sure of its quality. That's why we give you a long [5-year](#) warranty (although you probably won't use it anyway).

ENDORFY Stratus 120 PWM – main features:

- Optional automatic fan stop
- Extreme speed range with PWM control
- Long-life FDB bearing
- High performance against flow restrictions

ENDORFY Stratus 120 PWM – technical specifications:

- Product code: EY4A007
- EAN: 5903018666006
- Product type: PC fan

- Fan dimensions: 120×120×25 mm
- Fan bearing: FDB
- Fan speed: 200 (±100) – 1400 (±10%) RPM
- Control (speed): PWM
- Connector (fan): 4-pin (male and female)
- Voltage (fan): 12 V
- Current (fan, peak): 0.25 A
- MTBF: 80 000 h
- Warranty: 60 months

ENDORFY Stratus 120 PWM – logistics data:

- Retail box dimensions: 145×30×130 mm
- Weight (net): 129 g
- Weight (gross): 160 g
- Master carton dimensions: 455×330×285 mm
- Master carton weight (gross): 10.3 kg
- Product quantity in master carton: 60 pcs

Set includes:

- Stratus 120 PWM fan
- 4× screw
- Safety instructions
