

DIGITUS Modular KVM switch, 16-port

DS-72214**EAN 4016032447610**

KVM module, 16 port for modularized KVM console

The modular DIGITUS® KVM switch offers a multitude of individual configuration possibilities, so that it can be adjusted to the area in which the console is being used. As a result, the console is economical and can be upgraded and/or converted at any time with further modules. Due to the flexible configuration, a high level of future security of the console is thus guaranteed. The modular KVM switch offers the connection of a server via USB or PS/2, as well as VGA. The DIGITUS® 17" oder 19" modular console, a keyboard and the appropriate set of cables are required for operation. The high quality KVM switch modules with IP function (optional) are ideal for use in small to mid-sized server rooms in which access by the administrator must be guaranteed from any place at any time. They offer a direct connection from a local console or with the optional IP module with a browser via an existing internet connection. The accessories are offered in the most diverse versions.
