

SLIM PRO HUB ADAPTER

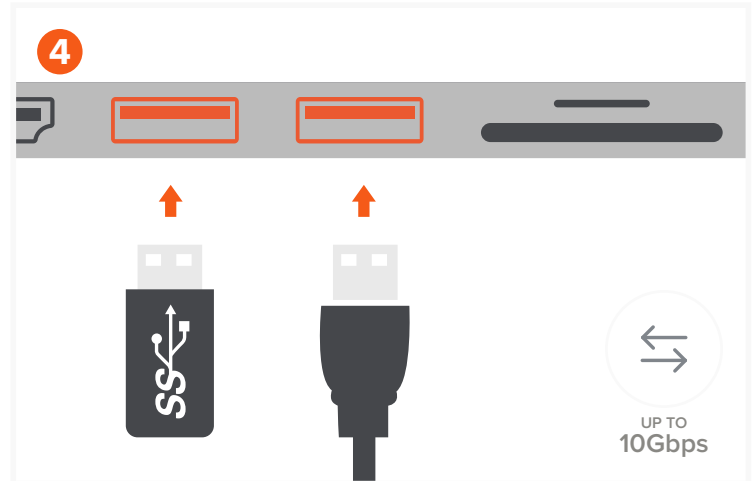

Connect the Hub into the Thunderbolt ports on your MacBook.

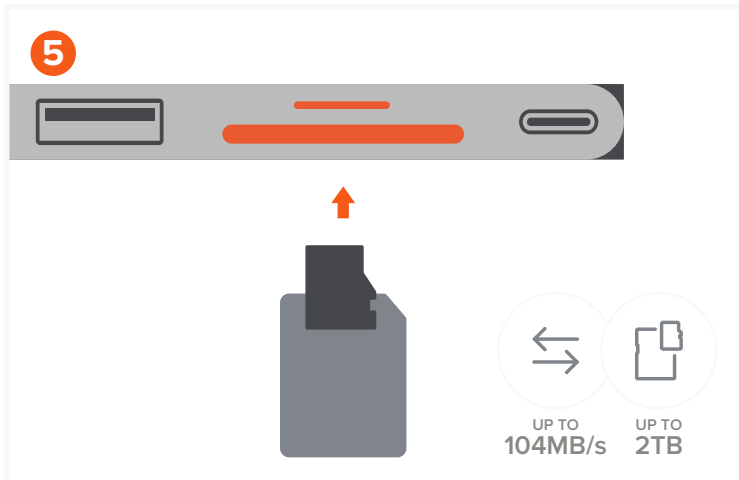

Use the USB4 port to charge your device up to 100W, output video up to 6K/60Hz, or transfer data at up to 40Gbps.

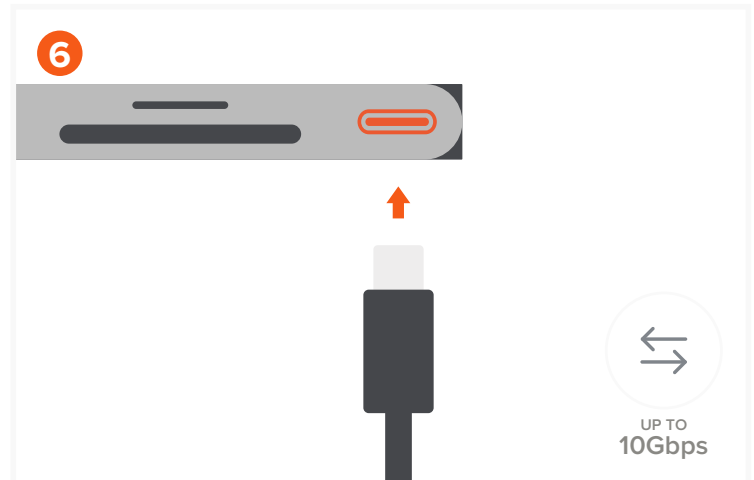

Use the HDMI port to output 4K video to an external monitor – up to 60Hz.

Use the two USB-A data ports to connect USB devices (up to 10Gbps). Does not support charging or CD readers, including Apple USB SuperDrive.

Insert microSD or SD cards into the card reader slots. Support SD/SDHC/SDXC, SD3.0 UHS-1, up to 104MB/s, capacity up to 2TB (Synchronous use).

Use the USB-C data port for data transfer at up to 10Gbps speed. Does not support charging, video output, or CD readers, including Apple SuperDrive.
